Performance, Features & Benefits

- **Shell's most advanced emissions-compatible technology (ECT) for low-SAPS oil**

  Protects emission system by helping to keep diesel particulate filters ultimate active cleansing technology Helps to protect high-performance engines from power- and performance-robbing deposits

- **Unsurpassed sludge protection**

  No other motor oil can keep your engine closer to factory clean [1]

- **Developed with special antioxidants**

  Helps to provide excellent oxidation protection throughout the oil-drain interval.

- **Exceptional low-temperature performance**

  Easier starting in cold weather, faster oil flow for quicker engine warm-up [2]

- **High resistance to mechanical stress**

  Maintains viscosity and stays in grade throughout the oil-change interval.

- **Low evaporation formulation**

  Low oil consumption for less frequent top-up.

- **Low viscosity and low friction**

1 Based on Sequence VG sludge test results using 0W-40

2 Compared with higher viscosity oils.

Main Applications

- Shell Helix Ultra ECT's fully synthetic formulation uses Shell's most advanced emissions-compatible technology to help gasoline engine exhaust catalysts to keep diesel particulate filters clean and protects it from ash build-up that can block the exhaust system and lead to reduced engine performance.
